

VAIBHAV JAIN

Aspiring Product Manager | Product Strategy | User Research | Business Analysis
Delhi, India | vasu2001jain@gmail.com | 7428221126 | LinkedIn | GitHub | Portfolio

Summary

Aspiring Product Manager who backs product decisions with primary research and structured frameworks such as **RICE prioritization, root cause analysis, and evidence-based PRDs** across **fintech, hiring, and marketplace** domains. Skilled in product discovery, competitive analysis, and feature prioritization, translating user insights into actionable product strategies and measurable business impact.

Education

Vivekananda Institute of Professional Studies, GGSIPU

Delhi, India

Bachelor of Technology in Computer Science Engineering (CSE) | **Expected Graduation: 2027** | *CGPA: 8.2/10*

Class XII (CBSE): 86% Class X (CBSE): 90%

Experience

Product Management Intern, RapiPay

Jan 2026 – Feb 2026

Product Management & Fintech Operations

- Analyzed end-to-end workflows across **AEPS, DMT, Merchant Onboarding, and Settlement** within an RBI-regulated assisted banking ecosystem serving **10Cr+ customers through 6L+ merchant outlets**.
- Conducted competitive benchmarking of **RapiPay, Spice Money, and PayNearby**, identifying opportunities to improve merchant onboarding, transaction reliability, and assisted banking experience.
- Authored an independent **Product Teardown, Bug Report, and PRD**, translating operational insights into product recommendations for merchant experience and platform reliability.

Projects

LinkedIn Application Intelligence | *Product Case Study — Early-Career Hiring Platform*

- Investigated uncertainty in early-career hiring, where **75% of applicants never hear back**, through primary research (**N=31**) and root cause analysis, identifying status visibility as the top opportunity (**48% validation**).
- Designed a strategy to lift **Recruiter Acceptance Rate by 10%** through three **RICE**-prioritized pillars, balancing candidate transparency with recruiter efficiency.
- Authored a full **PRD** covering MVP scope, experimentation strategy, implementation risks, success metrics, and rollout planning.

RapiPay Product Teardown | *Product Case Study — FinTech & Assisted Banking*

- Built an independent teardown of RapiPay's business model (**6L+ agent outlets, 3Cr+ monthly transactions, INR 360Cr FY25 revenue**), mapping its AEPS pipeline end-to-end.
- Benchmarked RapiPay against **2 competing platforms** and sequenced a **3-stage roadmap** (Now/Next/Later) for the identified opportunities.
- Diagnosed a high-impact reliability bug from public app-review analysis, delivering a formal bug report and a feature PRD with a defined success metric.

Scrapido | *Sustain-a-thon 2025 — Sustainability & Circular Economy*

- Led product strategy for a **5-member team** at a national sustainability hackathon, designing an **AI-powered scrap valuation** flow to close the trust gap between citizens and collectors.
- Defined user journeys and feature prioritization across a three-sided marketplace (households, collectors, artisans).
- Delivered a **live prototype** connecting all three stakeholder groups.

Leadership & Achievements

Head of Operations, Hack VSIT (VIPS Hackathon): Directed end-to-end operations for a university hackathon hosting **200+ participating teams**, coordinating logistics and cross-functional stakeholders.

Event Head, Alfresco — VIPS Annual Sports Festival: Led execution of VIPS' sports festival, managing **1,000+ registrations**, coordinating volunteers and interviewing prospective society recruits.
